Illustration and Writing Contest-Now and Future:2020 vs.2030

Everyone and everything we love will die one day. However, when someone is dying, at the same time, there are many new lives coming to this big world. No one can stop the lapse of time and know what will happen in the future. It is how the infinite and mysterious cosmos works itself.

The saddest part of life is the person who gives you a wonderful memory becomes the past. Thus, remember to remind ourselves to treat people around us kindly and be grateful. Don't be scared of death. It's just the progress that every life must go through.

Time will become meaningless.
